

## 15. How will we support your child's emotional and social development?

We recognise that some children have extra emotional and social needs that need to be developed and nurtured. These needs can manifest themselves in a number of ways, including behavioral difficulties, anxiousness, and being uncommunicative.

All classes follow a structured PSHE (Personal, Social, Health and Economic education) curriculum to support this development. However, for those children who find aspects of this difficult we offer:

- **Place2Be** which provides emotional and therapeutic services for some children within the school. It helps to build a child's resilience through talking, creative work and play. A child will have a 45 minute counseling session once a week for a set amount of time.
- **Place2Be** has supported children with a wide range of complex social issues including bereavement, domestic violence, family breakdown, neglect and trauma.
- **Place2Talk** is available to both Key Stage 1 and 2 children. This is a lunchtime drop in service for children who want to chat about any concerns or worries they may have. Children come by themselves or with up to two friends. Sessions are up to 15 minutes a session.

If your child still needs extra support, with your permission, the SENDCo will access further support by completing the EHAP (Early Help Assessment and Plan) form with you to request support from agencies within Ealing Support Services.
