

PE Premium

Budget:

Block Sum: £8000

FTE Pupils on roll: 570

Total Amount of grant: £ 10,075 to date

Physical Education and Sport Grant (P.E. Pupil Premium 2015/16)

From September 2013 the government are allocating funding directly to primary schools to support the provision of P.E./sport. Each school receives £8,000 plus an extra £5 per pupil. It's important that we use this money wisely, especially as the majority of the P.E. support we previously received from high schools will cease. At Ravenor we aim to give every child the opportunity to enjoy and develop their physical and sporting ability. We are aware that one in three eleven year olds in our area are overweight and/ obese and believe that P.E./Sporting activity is key to promoting healthier life choices. The data that we receive through our Health, Related, Behaviour survey, provides us with areas of focus. This year our Health, Related, Behaviour survey told us that more children wanted to take part in physical activities.

We plan to use P.E. premium funding to:

- Continue to employ specialist P.E. teachers or qualified coaches to increase participation and confidence in P.E.
- Employ specialist P.E. teachers or qualified coaches to provide after school sports clubs for both Key Stage one and Key Stage Two pupils.
- Employ a Play worker to develop physical activities for targeted groups of pupils at lunchtimes.
- Develop the provision for holiday sporting clubs.
- Purchase equipment to ensure that a wide P.E. curriculum can be offered for all pupils.

The teaching of good, regular P.E. and the provision of a wide range of clubs and activities which include competitive activities is key to the delivery. We aim to be acknowledged as delivering outstanding P.E, sport, Inter sports events and equality of opportunity for all of our pupils.

How will the impact be measured?

- Observations of children and staff during P.E. lessons and feedback to improve the quality of lessons
- Broad P.E. curriculum will be offered through the purchase of additional equipment.
- Number of pupils accessing holiday sports clubs.
- Increased after school clubs and participation in P.E. and sport for both KS1 and KS2.
- Improved behaviour during break and lunchtimes.
- Feedback from pupils about their opportunity to be involved in physical activities.
- Feedback from pupils and parents about the provision for sport both within school and outside of the school day, e.g. competitions with other local Primary schools.

Impact

Feedback from parents and pupils show that 100% are pleased with the increased opportunity for pupils to be involved in physical activity.

Attendance improved and persistent absence rates decreased in 2015/2016, following targeted intervention for vulnerable pupils to participate in physical activity before school.

Feedbacks from observations and from pupils show that standards of PE teaching are outstanding. After school sporting activity clubs are now available for both KS1 and KS2 children and are all fully subscribed.
