

## PE Premium

Budget: £11,150

Block Sum: £ 8,000

FTE Pupils on roll: 630

Total Amount of grant: £ 11,150

### Physical Education and Sport Grant (P.E. Pupil Premium 2016/17)

From September 2013 the government are allocating funding directly to primary schools to support the provision of P.E./sport. Each school receives £8,000 plus an extra £5 per pupil per annum.

It's important that we use this money wisely, especially as the majority of the P.E. support we previously received from high schools will cease. At Ravenor we aim to give every child the opportunity to enjoy and develop their physical and sporting ability. We are aware that one in three eleven year olds in our area are overweight and/ obese and believe that P.E./Sporting activity is key to promoting healthier life choices. The data that we receive through our Health, Related, Behaviour survey, provides us with areas of focus. This year our Health, Related, Behaviour survey told us that more children wanted to take part in physical activities.

#### We plan to use P.E. premium funding to:

- Continue to employ specialist P.E. teachers or qualified coaches to increase and sustain participation and confidence in P.E.
- Specialist P.E. teachers to provide CPD for less experienced teachers in the form of demonstration lessons, support with planning and advice.
- Employ a specialist teaching assistant to lead on sporting activities which provides opportunities for pupils to take part in competitions and tournaments.
- Develop further the opportunities for girls to be involved in sporting activities at competition and tournament level.
- Make links with other schools and the private sector, to enhance pupil's access to quality resources and facilities.
- Resource and provide table tennis clubs for before school and lunchtimes, to increase activity levels for reluctant pupils.

The teaching of good, regular P.E. and the provision of a wide range of clubs and activities which include competitive activities is key to the delivery. We aim to be acknowledged as delivering outstanding P.E, sport, Inter sports events and equality of opportunity for all of our pupils.

#### How will the impact be measured?

- Monitor participation and confidence of children in P.E. lessons through observation and discussion.
- Observations of children and staff during P.E. lessons and feedback to improve the quality and effectiveness of lessons.
- Broad P.E. curriculum will be offered through the purchase of additional equipment.
- Number of pupils accessing holiday sports clubs.
- Increased after school clubs and participation in P.E. and sport for both KS1 and KS2.
- Improved behaviour during break and lunchtimes.
- Feedback from pupils about their opportunity to be involved in physical activities.

- Feedback from pupils and parents about the provision for sport both within school and outside of the school day, e.g. competitions with other local Primary schools.

### **Impact**

Teachers feel supported in the delivery of PE and observations have been carried out of delivery of high quality PE lessons. Feedback from observations and from pupils shows that standards of PE teaching are outstanding.

Feedback from parents and pupils show that 100% are pleased with the sustained opportunity for pupils to be involved in physical activity.

Links have been made with other schools and pupils have attending sporting events and competitions.

Attendance remained in line with the previous year at 95.6%. After school sporting activity clubs remain available for both KS1 and KS2 children and remain fully subscribed.
