

The Aspen Class Rap

I was born with a WAH! WAH! WAH!
My mother was shouting OW! OW! OW!
I don't know why she was crying loud,
But here I am with a big KAPOW!

Then I went to school when I was four,
I thought it was cool until I got bored.
Maths OH maths!
All these equations,
On all these occasions.
My head was spinning,
The maths was winning.
I never knew it would be like this!

I love to read,
I love to cook,
I normally have my nose in a book!
I love my friends,
They love to mend,
Our friendship will never come to an end.

They say I'm sweet,
Just like a treat.
Lollipop, candy, fizzy pop,
I never stop eating, no matter what,
Even when the beat will drop, drop, drop!
That's how I am, that's how I be,
I'm just a lovable busy bee!

Netball, dodgeball - my favourite sports,
That's just the way that I was taught.

When I get older, I might be a lawyer,
A mechanic, an engineer or even a
footballer.

When I get older, I will be smarter,
Though I'll work harder to get even
wiser!

That's my life, that's my dream,
Don't you want me on your dream team?
That's my life, that's my dream,
Sometimes it makes me want to scream!
But I'm so grateful for those who love
me,
If they weren't here, I just wouldn't be
me!

I was born with a WAH! WAH! WAH!
My mother was shouting OW! OW! OW!
I don't know why she was crying loud,
But here I am with a big KAPOW!
