18th March 2020

Dear Parents/carers

Re: Home learning arrangements in the event of a whole or partial school closure.

In the event that we are asked to close, or need to partially close (if we do not have sufficient staff to run year groups safely) we will be setting learning for children in the following way. Please note that as we are still open, the learning is not available as yet. We are hoping to get it all on the website by Friday.

- **Reception – Please continue with home reading, using the following resources:**

www.activelearnprimary.co.uk (**bug club**)

Teachers will send home each child's log in details.

On this site children can access reading books. These books are colour banded so children can read a range of books at their current level.

<https://www.oxfordowl.co.uk/>

Free e-books. Create a user account.

- **Year 1 – Year 5:**

Go to the school website <https://www.ravenor.ealing.sch.uk/>. Go to the Home Learning tab and under here there are separate tabs for each year group. All learning set will be in here, including Mathematics and useful websites.

- **Year 6:**

We have set a range of home learning under a new learning platform called Showbie, which we are trialling. Each child has been given a username and password to be able to access their learning. **Please find attached the guidance to show how your child can access their learning.** All Year 6 children, who were in school today, have had a go at logging in and using the site.

As yet, **we have not been informed by the government that we need to close** and at present we have sufficient staff to run all year groups, with some mixed classes. This is changing daily, so I will keep you informed if this changes.

In the event of a closure, or partial closure, we will be sending out an email or a text, so it is vital that we have your most up to date mobile number and email address. Please telephone the office if you need to update your contact details.

Please see below a child friendly resource to help you discuss the Coronavirus with young children. It is available in a range of languages:
