My medieval style map

In Medieval Europe most people didn't travel. Many thought the earth was flat and they could only imagine what the rest of the world looked like. Draw a middle ages- style map of your world, putting in places that are important to you. Link the places with routes or roadways and use symbols or simple drawings of important places/landmarks.

Where do you live? What is it like where you live?

Where do other members of your family live?

How close are your friends to where you live?

Think about the places that you visit often.

What exciting or interesting places have you been to?

Draw an outline of your map here
